Page 2 — How to Use This Planner (Read First)

- This kit assumes you'll be visiting hobby-and-electronics districts, anime-themed locations, arcades, and merch shops.
- Use generic categories below to plan; fill in the specific spots you find from current official guides and maps.
- Many themed cafes and pop-up events are reservation-only or limited-time — book early and recheck dates.
- Tax-free shopping is often available for visitors at larger stores; bring your passport.
- Cash is still useful at smaller arcades, capsule-toy machines, and second-hand shops.

Checklist before you go:

- ☑ Passport (also needed for tax-free shopping)
- ☑ Reservations for any themed cafes / events
- ☑ Empty bag or extra luggage space for goods
- ☑ Portable battery for map and photo use
- ☑ Cash + IC transit card topped up

Page 11 — Quick Etiquette & Practical Notes

- Photos: don't photograph staff, customers, or inside venues without permission; follow posted rules.
- Lines: themed venues and limited-goods drops can have long, orderly queues — arrive early.
- Packaging: ask for extra protection for fragile goods; carry a small box or padding.
- Power: arcades and shopping days drain phones fast — carry a battery pack.
- Respect residents near "pilgrimage" spots; keep noise down and don't trespass.

This planner is general guidance only. Always confirm the latest official details for any venue, event, or collaboration before you go.
