Page 3 — How to Use This Planner

- Step 1: Decide your base — the Fuji Five Lakes side (closer Fuji views) or the Hakone side (hot springs + a scenic loop). Many travelers do one each night.
- Step 2: Lock your transport first (Tokyo → Fuji/Hakone), then build the day around it.
- Step 3: Check the weather page early — Fuji shows itself best on clear, crisp mornings, so plan your view-chasing for then.
- Tip: Early morning and late afternoon usually give the clearest skies and softest light for Fuji.

Page 4 — Area Overview

- Fuji Five Lakes side: a cluster of lakes at the foot of Mt. Fuji, known for reflected-Fuji photos, lakeside walks, and viewpoints.
- Hakone side: a mountain hot-spring region reached by train and bus, famous for its open-air art, a scenic loop (train, switchback, ropeway, cruise), and relaxing baths.
- Getting around: from Tokyo, both areas are reachable by train and/or highway bus in roughly a couple of hours.
- Typical split: one day chasing Fuji views by the lakes, one day relaxing on the Hakone loop.

Must-decide	Your choice
One day or overnight?	
Lakes side, Hakone side, or both?	
Hot-spring stay? (Y/N)	

Page 5 — Access Planner (From Tokyo)

Leg	Method	Depart	Arrive	Notes
Tokyo → Fuji area	train / bus			
Tokyo → Hakone area	train / bus			
Between the two areas	bus / train			
Return to Tokyo				

- Passes: regional area passes can bundle the train, bus, ropeway, and cruise — compare against single tickets for your plan.
- Reminder: Confirm the last train and last bus times so you don't get stranded in the mountains.

Page 6 — The Hakone Loop

A classic one-day circuit links several modes of transport into a scenic loop. Fill in your order and times.

Order	Segment	Mode	Time
1	Up the mountain	mountain train	
2	Steep section	cable car / switchback	
3	Over the valley	ropeway	
4	Across the lake	sightseeing cruise	
5	Back to base	bus / train	

- Note: Do the loop clockwise or counter-clockwise depending on crowds and your start point.
- Volcanic-area note: Some valley stops may close on short notice for gas activity — check before you go.

Page 7 — One-Day Plan

Time	Plan
Early	Travel from Tokyo; aim to arrive before midday haze
Late morning	First Fuji viewpoint or lakeside walk
Midday	Local lunch with a mountain view
Afternoon	Hakone loop highlights or a second viewpoint
Late afternoon	Soak at a day-use hot spring (optional)

Page 12 — Weather & Clear-View Planner

Mt. Fuji is shy — it often hides behind cloud, especially midday and in warmer months.

Day	Forecast	Sky at sunrise	Fuji visible?
Day 1			☒
Day 2			☒

- Best odds: clear, cool mornings, and after rain when the air is clean.
- Backup plan if cloudy: hot springs, museums, and the cruise are good rain-or-shine.
- Reminder: Forecasts shift — check the latest weather the night before and at dawn.
